Business and I.T. - DDM

Bradford, UK
Graduated 2018

Projects

Blackjack Card Counting Tool | HTML, CSS, JS, Firebase

- Developed an Interactive website with the goal to teach the player how to count cards in the game of blackjack
- Integrated Firebase authentication to allow the user to create an account that tracks their in-game values to see progress

Personal Portfolio Website | HTML, CSS, JS

- The primary goal of the website is to showcase my technical abilities, creativity, and problem-solving skills to potential employers, clients, or collaborators
- Features responsive design to scale to any display
